

Safe Mobility for Life: Promoting Aging in Place

Gail M. Holley

Florida Dept. of Transportation
State Traffic Engineering and Operations Office

Miami Age-Friendly Summit

May 12, 2015

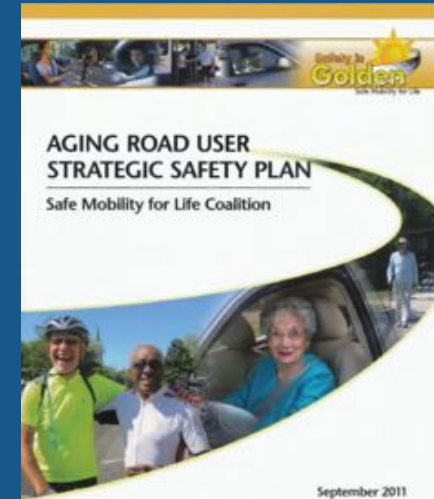

Safe Mobility for Life Coalition

- ☀️ 27 diverse member organizations.
- ☀️ Balance safety and mobility needs of Florida's growing aging population.
- ☀️ Promote a positive, empowering and comprehensive approach to aging road user safety and mobility.

Florida's Aging Road User Strategic Safety Plan

- ☀️ **Goal:** To reduce crashes by **improving** the safety, access and mobility of aging road users.
- ☀️ Comprehensive plan that addresses both safety and mobility issues.
- ☀️ Aligns with other state plans.
- ☀️ Ten emphasis areas with goals, objectives, strategies, action steps.
- ☀️ Aging Place Emphasis Area.

Resource: Aging in Place Checklist

- ☀ Step by Step Interactive Checklist.
- ☀ Promotes Four Areas:
 - ☀ Community Design
 - ☀ Getting Around
 - ☀ Street Safety and Security
 - ☀ Support Services and Social Programs
- ☀ **Individuals:** Can determine how well a community meets their personal mobility.
- ☀ **Communities:** Can use as a tool to gauge if they have the services in place for Floridians to successfully age in place.

Tips to Creating an Age-Friendly Community

☀ Review Your Community:

- ☀ How would you get around if you could no longer drive?
- ☀ If you couldn't easily and safely do that, what changes would you make?

☀ Engage Partners:

- ☀ A diverse and passionate team to address your communities transportation needs.

☀ Create A Plan:

- ☀ Your own vision of an age-friendly community.
