- ☀ Outreach & Advocacy

- ☀ Prevention & Assessment

- ☀ Transitioning from Driving

- ☀ Data-driven and evaluation based plan.

# Aging in Place Strategies

- ☀️ Educate stakeholders on the benefits of aging in place.
- ☀️ Promote transportation and land use decisions to support livable rural and urban communities.
- ☀️ Promote partnerships with regional planning organizations and local governments and educate on the importance to address the specific needs of their transportation, land use and housing plans.
- ☀️ Promote the interconnectivity of the transportation system.
- ☀️ Implement at the state and local level, proven safety and mobility countermeasures that address the physical and visual issues affecting aging road users.

# Available Resource: Aging in Place Checklist

- ☀️ Helps you identify what is important to you to have in your community to help you remain independent, mobile and active.
- ☀️ Four Areas:
  - ☀️ Community Design
  - ☀️ Getting Around
  - ☀️ Street Safety and Security
  - ☀️ Support Services and Social Program
- ☀️ Answers will help you learn how your community meets your mobility needs to successfully age in place.
