The Dementia Care and Cure Initiative (DCCI)

Mission:

To engage communities across the state to be more dementia friendly, promote better care for Floridians affected by dementia, and support research efforts to find a cure.

Vision:

To see all Florida communities engaged in providing better care for those affected by dementia while we work towards a cure.

Goals:

- Increase awareness of dementia and of services and supports for those with dementia, their families, and caregivers.
- Provide assistance to dementia-caring communities.
- Continue advocacy for care and cure programs.

Florida is projected to have
more than **720,000**
individuals with Alzheimer's
disease in the next 10 years.

Source: Alzheimer's Association

- Florida has the second highest incidence rate of Alzheimer's Disease in the nation – only behind California.
- There are approximately **520,000** individuals currently living with Alzheimer's Disease
 - This figure does not include other forms of dementia or the millions who serve as caregivers

The Pilot Community

In April 2016,
Tallahassee and Leon
County announced as
state's first Dementia-
Caring Community
through the Dementia
Care and Cure
Initiative (DCCI).
